"Keeping it clean, roadside visibility, regularly monitored "

"It is very dark. I hate to take down trees, but maybe cut back to brush?"

Unknown contact said:

"Garbage cans, even off trail "

Unknown contact said:

"The park definitely needs a new play structure and to possibly knock down the tree right next to the playground or move the playground because the tree sheds a lot.

Fresh landscaping would be lovely and the baseball field needs new life.

I would love to go there with the kids but it just seems so dark and I've seen sketchy people there. It doesn't feel safe to me."

Unknown contact said:

"Fence between the park and neighboring houses. "

Closing access at night.
An active and connected neighborhood watch committee with signs like there was in the 80's.
Continuing improvements intentionally meant to attract families and healthy activities. "

"Clean it up, open it up- let the sun in. Regular maintenance- more eyes keeping it safe. "

Unknown contact said:

"My husband and I live very close and used to walk through the park. In the rain it gets quite mucky. That and the rundown equipment are why we don't do that anymore(plus we're getting old). It could be so nice; thank you for working on improving our local resources"

Unknown contact said:

"I am pleased the historic Burley park is still part of the area. Just knowing it's still here for everyone to visit, to be able to reflect on the old days of Burley, and to think about the past as well as the future is wonderful.

"Safety is most important to me.
Safe equipment and environment."

Unknown contact said:

"As a parent with children ranging from toddler to teen, I think that lights and playground equipment would make the park much more visited. I think a fence blocking the adjacent houses would also make people feel much more comfortable. It can feel like you're in their backyard. I would come multiple times a week if there were a playground. My teens already use the baseball field to play with neighborhood friends and would prioritize the field if left up to them. "
